**vanity as the end of all intelligent life  
being the meaning of life  
as the vision in this cosmos**

**and not this vanity being saved  
where not one intelligent life  
being found**

**and why can not all of them ?**

**be fulfilling themselves as human beings ?  
not even maintain their environment  
possibly**

**even deny their damage  
because in this world it is only about**

**the vanity itself !**

**so every one just caring about  
their vanity being saved**

**because just being a pest  
and not real homo sapiens  
so not real homo sapiens at all**

**just vane apes**

**all of these do not even see  
that they can not even potentially  
grasp the meaning of this universe**

**so this vision of this creation  
where only wisdom is required**

**to understand the vision of this creation  
so the complementary fulfillment  
in itself ....**
